

JOB DESCRIPTION: Implementation Project Manager

Description

Deploymint is looking for someone to work closely with the founders to execute on our roadmap. We have built an NFT Marketplace that can be easily deployed for brands to reach consumers directly, selling NFTs and smart contracts. We need your help working with us to find potential clients, manage day to day tasks, getting the development team what is needed, and growing into an integral part of the operations. As we grow, your role will grow with us.

Responsibilities

- Backoffice sales support for pitching to new prospects
 - Highlighting prospective opportunities
 - Work on presentation decks for new client pitches
 - Design or work with designers to design NFT assets (photos comped into proposals such as playing card decks, bobbleheads, etc.)
- Onboarding a new client
 - Work with creatives and designers to produce product design images
 - Gather and document business requirements on new installations of deployment
- Supporting client requests
 - Liaising between client, leadership and development team
- Administrative work
 - Research and information gathering for founders
 - Back office documentation and administration
- Note: Responsibilities will grow and change as the business grows

Qualifications

- Proven success managing projects or products across marketing, sales and product roadmap, preferably in a product development environment
- Proven ability to manage expectations and commitments
- Strong time management and organizational skills
- Excellent verbal and written communication skills. Presentation experience, a plus.
- Flexible to evolving responsibilities and last-minute changes
- Must have access to computer, mobile devices and be able to stay connected during normal business hours

- Ability to multi-task
- Ability to think strategically
- Ability to take initiative and teach yourself new skills

Personality Profile

- Passionate about blockchain and NFTs
- Collaborative but able to execute when given direction
- Highly creative with good eye for design
- Likes to check the boxes to get things done
- Smart & intellectually curious
- Data-driven and logical in all you do
- A hard working problem solver

Company Description

Deploymint is a robust yet simple blockchain based platform that allows entities to create a marketplace for smart contracts and NFTs that fit their specific needs. By making smart contracts creation available to the mass market we believe companies can easily imbed a blockchain strategy into their overall business model. Our Blockchain-In-A-Box product allows customers to Deploy highly customizable solutions quickly and easily. The platform is built to ensure a simple and intuitive user experience allowing customers to buy and sell digital assets without any knowledge of technology.

Commitment:

This is a contract based position with a minimum 60 hour commitment across 6 weeks with likelihood to scale. Pay dependent on experience and availability, starting at \$20/hour.
